FACILITIES

- The Pembroke School Board will review existing facilities for the purpose of evaluating space needs, health and safety upgrades that may be needed, and future capital improvement planning.

❖ **SPECIFIC OBJECTIVES:**

- Review and update as needed the Capital Improvement Plan utilizing the data collected from the Engineering Study.
- Continue to study the feasibility of keeping the Village School in operation.
- Continue to study the feasibility of an addition to Hill School.
- Form a study committee consisting of a parent, staff members from Hill and Village School, a representative from a local business, a representative from the engineering field, a member of the Capital Improvement Committee, a member with a background in finance, a Select Board member, administration, Facilities Director, and Pembroke School Board representatives.
- Review class sizes and enrollment projections.
- Hold community forums to gather input regarding long term planning.
